Dear Parent/Carer

Rights Respecting School Award (RRSA) Initiative

We are excited to share with you a significant initiative that our school has undertaken to further enhance the well-being and education of our students. Our commitment to creating a positive and inclusive learning environment aligns with the principles of the United Nations Convention on the Rights of the Child (CRC). To formalise our dedication, we are pursuing the prestigious Rights Respecting School Award (RRSA).

The RRSA initiative, developed by UNICEF, is designed to empower young people to become active and informed citizens by embedding the values and principles of the CRC into the ethos and curriculum of our school. By embracing these rights, we aim to foster a community where every child's voice is heard, respected, and valued.

As part of our journey towards achieving the RRSA, we will be implementing various activities, events, and educational programs to educate both students and parents about the importance of children's rights. We encourage you to actively participate in these initiatives and engage in discussions with your children about their rights and responsibilities.

We believe that a Rights Respecting School not only enriches the educational experience for our students but also strengthens our school community as a whole. Your support and involvement in this initiative are crucial to its success.

Thank you for your ongoing support as we embark on our journey to create a Rights Respecting School.

If you have any questions or would like more information, please do not hesitate to contact me on hillr214@sflt.org.uk.

Yours faithfully

Mr R Hilleard
Science Teacher
RRSA Co-ordinator
