

Dear Parents/Carers,

We would like to invite you and your child/ward to a live, virtual panel event on Tuesday 20th June between 5pm – 7:30. This event is being hosted by the Young Professionals organisation and in collaboration with: The Spectris Foundation, Spectris Plc, and Techgirlz.

The event is designed to celebrate International Women in Engineering Day. This will be a unique chance for students to delve into the world of technology and engineering and gain invaluable insights from industry experts during mini keynote talks that will cover a range of captivating subjects. Students will also have the opportunity to participate in interactive, real-time workshops designed to ignite their passion for technology and innovation. Ever wondered how an app is made? Students will have the opportunity to think like a researcher, designer, and developer!

Later on, the panel discussions will feature influential senior leaders who will provide invaluable perspectives on the future of engineering, emerging trends in technology, and the importance of diversity and inclusion in this ever-evolving field.

Registering is easy, just complete the form below (use Ctrl + left mouse click on the link below):

We hope you find this event of use and interest, and we look forward to supporting your child/ward as they navigate their way through careers. We invite you to contact us should you have any further questions or queries.

Kind regards,
