26 February 2024

Dear Parent/Carer

As I hope you are aware, on Thursday 14<sup>th</sup> March there will be a Year 9 Parents/Options evening. This will be held in the Greenacre building from 4pm - 7pm.

On this day, parents will be able to speak to their child/ward's English, Maths and Science teachers about their progress in these subjects. There will also be talks by Mrs Campbell who will be explaining the options process. These talks will be held in the G-side main hall at 4:30pm, and then repeated at 6pm. Finally, students and parents will be able to visit all the other departments in the G-side Sports Hall to gather information about each of the options subjects and speak to relevant members of staff. Teaching staff from Greenacre and WGS will all be present.

Attendance to this event is highly recommended as I am sure you will want an update on your child/ward's progress in the core subjects and it is essential that you fully understand the options process and what each subject involves.

Please click on the link below by Monday 11<sup>th</sup> March to inform me of your attendance to the event and the time-slot you will be attending.
