Statement of Intent

Homework is an essential part of a child's education. At The Walderslade & Greenacre Schools Partnership believe that homework plays a crucial role in the educational development of our young people. Homework serves as an extension to regular classroom practice, providing students with the opportunity to reinforce concepts, practice key skills and develop effective study skills such as independence. Homework should be meaningful for the student and manageable for the teacher.

Aim

The Walderslade & Greenacre Schools Partnership aim to reinforce classroom learning through the integration of knowledge organisers into our curriculum. Knowledge organisers will support pupils to develop their skills in learning promoting independence, resilience and retrieval. In KS3, a series of online quizzes will replace traditional homework formats and platforms, allowing staff to assess progress and address misconceptions found quickly. Here at WGSP, we understand the value of utilising the time that students spend in the classroom. Therefore, quizzes are expected to be completed either at home, or in homework club.

Our focus will be to ensure that all knowledge organisers focus on improving the levels of reading and literacy, enabling students to access content throughout the curriculum. By emphasising tier 3 vocabulary acquisition, we aim to promote progress and enhance comprehension in all subjects. By leveraging research-supported strategies such as knowledge organisers, we anticipate fostering deeper understanding, improved retention/retrieval and increased engagement among students.

Homework

All students, in KS3, will receive knowledge organisers, in class, in every subject. The knowledge organisers will also be available to view on the website for use at home. Students will use the knowledge organisers to front-load content, allowing for staff to implement more pace and depth into their lessons. Knowledge organisers will also be used to consolidate learning that has taken place in the lesson and aid revision when students complete their online quiz.

Homework quizzes will be completed, outside of the classroom. Staff will set homework on a Monday, with communication to parents stating that the quiz is now available. Students in KS3 should expect to complete regular quiz homework from all subjects, with some subjects providing homework more often, based on the number of lessons students have in that subject. For example, students will receive more online quizzes in Maths than they will in Performing Arts. All departments have listed in their own policies as to how many quizzes will be set during each term. Students are able to complete homework as soon as it is uploaded. Once submitted, students will not be able to re-submit. Students will be able to keep the quiz open, allowing for them to come back to it, in their leisure.

All homework quizzes are compulsory for students to complete. All homework will be set on Microsoft Teams, either via Microsoft Forms or Seneca. Parents will receive regular emails when quizzes are available to complete. A rolling average of a students' quiz score will be added to the reporting schedule as a percentage. Parents can compare this average score with the class and year group average via the students report. Parents will be able to accurately see weak topics via these scores, promoting independence in their child's education.

Incomplete homework will result in sanctions. Any student failing to complete their quiz will receive a, whole school, 10-minute standards detention. It is our expectation that students complete their homework quiz in the allocated time given. Students who regularly score highly will receive instant rewards. Students who regularly fail to meet this expectation will have sanctioned escalated.

Love for Learning

All departments will supply students with a range of optional additional homework tasks that students can complete. All Love for Learning tasks will be handed into your child/ward's Form Tutor for instant rewards. These tasks are more technical and more creative than our online quizzes. As mentioned, these tasks are completely optional. Students who regularly go above and beyond will be rewarded.

KS3

- Students complete regular online homework quizzes based on Knowledge Organisers. Homework is compulsory for all students to complete
- Homework quizzes will be set every Monday by a variety of subjects. There is no fixed rota. We encourage students to create their own homework schedule to ensure they meet all deadlines.
- Students must complete the quiz in the time period provided. Deadlines will be made explicit.
- All homework quizzes will be set via Microsoft Teams. Students and parents will be able to view them as soon as they have been set by the subject teacher.
- Love for Learning tasks are provided and encouraged by all departments. Completion of this optional element of the homework policy will be rewarded.

KS4

- Students are to complete between 30-90 minutes of homework per fortnight in each subject.
- Homework may look different in different subjects (some subjects may use online quizzes; some subjects may require extended writing).

KS5

- Students are to complete 5 hours a fortnight of homework and independent study in each subject.
- Much like KS4, homework could look different depending on the subject area.

Role of Parent

Parents play a vital role to play in their child/ward's education, with homework being an important part of this process. Parents are encouraged to promote the completion of the homework quizzes, whilst playing an active role in their progress in each subject. Parents can support their child by providing a good working space at home. If this is unavailable, parents are encouraged to promote the use of homework club. With all quizzes set via Teams, parents are asked to check that their child has completed the quiz for each subject in good time. If a parent is concerned about homework, they should contact their child's Form Tutor in the first instance for support.

Promotion of Reading and Research

WGSP promote the wider reading and research of each subject. Departments will provide reading lists that will support your child/ward's education whilst studying at WGSP. Whilst the school will recommend reading lists, videos or research to enhance a child's educational experiences at home, the school does not take responsibility for the internet use at home. All links to further reading or research will be made available on the website, only.

Seneca+

Seneca+ gives unlimited access to the online platform, Seneca, that you would not get on the basic subscription. Seneca+ can be student and staff focused with both mini-lessons and creating quizzes. Aspects such as 'magic quizzes', 'night before resources', past papers and tailored resources become available via the premium subscription. The premium feature includes 800+ premium courses, learning modes, AI-marked exam questions and even an AI assistant. This would be on top of the free resources such as quiz creation and mini lessons. The premium course also includes Hyper Learning, Flash card creation, Hardest questions found and Career & University links. Students would be able to see where each subject guides someone for their future endeavours. Students in all Key Stages would receive their log ins, which are synchronised with their Microsoft Teams log ins, eliminating any confusion.

Sanctions for Homework Infringements

As mentioned, all homework quizzes are compulsory and if not completed by the deadline given, subject to sanction. Any quiz that is incomplete will result in the issuing of a standards detention. This 10-minute detention will be sat at lunchtime. Failure to attend the detention will result in the escalation process listed in our behaviour policy. Continuous poor results or quick completions can be challenged by the teaching staff. Staff have the right to ask students to re-submit the quiz. All sanctions will be communicated with parents via Arbor.

Monitoring and Review

The RSL of KS3 is responsible for coordinating and monitoring the implementation of this policy with support from the RSL of KS4 and KS5. This policy will be reviewed in accordance with the school's policy review programme.
