

Stretch and challenge for CHILD DEVELOPMENT

1. Find out what Jean Piaget's theory of cognitive development is?
2. Identify and describe 5 types of schema as identified by Jean Piaget.
3. Find out what Noam Chomsky's Language Acquisition Device is.
4. Research how the government helps fund child care for families on low incomes/ in poverty.
5. Identify 5 different types of child care provision and give a brief description of what each setting might provide for the child.
6. Find 3 different child care settings in Medway and state how long the setting is open for, what ages can children attend and how much does it cost. Then evaluate the local childcare provision and write a short review explaining how a young child might benefit from attending each.
7. Find a You Tube video of a child playing with blocks aged 2-5 years and make an observation of what they do and say.
8. Learn some Makaton or British sign Language to help communicate with a hearing impaired child.
9. Research the safety symbols that should be on children's toys. Which are British and which are European?
10. Write a review of a children's book (aged 4-8 years).
11. Research level 3 courses in child development.
