

## **Stretch and challenge for PERSONAL DEVELOPMENT**

### **Key Stage 3**

Challenge questions – every lesson will have questions designed to challenge your depth of understanding and knowledge.

Extension tasks will be used in some topics, which cover a broader section of the topic.

Homework often allows you to be independent. We will set tasks that allow you the freedom to complete work in the most creative, reflective & imaginative way possible.

Considering careers and career progression they are interested in.

### **Project Work**

Project work can be an excellent way to enable high-achieving children to work on a topic of interest to them. It's an activity that can be used within a range of class levels. Children can have either unlimited time or specified timeframes to complete the project. This style of task gives children a chance to be creative and to explore areas of special interest to them; areas that may not necessarily be covered within the classroom. Research further topic for each term, development of skills such as:

- self-responsibility
- time-management
- organisation
- research

## Key Stage 4

Challenge questions – these questions are specifically designed to challenge you to reach grades 8/9. They usually ask you to make links between Christianity and Islam or look at principles that can be linked to several aspects of the course.

Look out for ‘icing on the cake’ points that will make your answer stand out above the rest. Collect them throughout your course.
